ABSTRACT

In fall 1986, Mt. San Antonio College (MSAC) began a five year longitudinal study of the effectiveness of its matriculation services, which include assessment, orientation, counseling/advisement, and follow-up of students by staff members. The study utilized a computerized tracking system to compare retention, grade point average (GPA), persistence from semester to semester, and degrees and certificates earned among matriculated and non-matriculated students. The study also compared students participating in matriculation services with degree-seeking students who did not participate. The study sample included students who entered MSAC in fall 1986 (N=7,443), spring 1987 (N=4,623), fall 1987 (N=9,295), spring 1988 (N=6,008), fall 1988 (N=4,245), and spring 1989 (N=2,285). Findings related to the fall 1986 cohort after six semester of attendance at MSAC included the following: (1) 3,288 students participated in assessment, orientation, counseling/advisement, and/or follow-up activities, while 1,202 were subject to matriculation but did not participate; (2) the number of units completed and persistence rates from semester to semester were significantly higher for matriculated students than non-matriculated students; (3) with the exception of the first semester, non-matriculated students earned higher GPA's than matriculated students; and (4) as of October 29, 1989, 271 members of the fall 1986 cohort had earned a degree or certificate. The report presents graphs and tables for all entering cohorts. (WJT)

What is Matriculation?

Matriculation is a helping process designed to assist students in establishing and reaching their academic goals. It is a partnership between the student and the college dedicated to student success.

Who is Eligible for Matriculation?

All first-time students who have declared a goal of earning a degree or a certificate are subject to matriculation.

Purpose of Matriculation

The major goal of matriculation is student success. The services of assessment, orientation, counseling/advisement and follow up are offered by Mt. San Antonio College to assist students in establishing and reaching their academic goals. These services, if successful, should result in higher grades, higher course completion rates, and a higher rate of persistence from semester to semester for the students who use them.

What is Matriculation?

Matriculation is a helping process designed to assist students in establishing and reaching their academic goals. It is a partnership between the student and the college dedicated to student success.

Who is Eligible for Matriculation?

All first-time students who have declared a goal of earning a degree or a certificate are subject to matriculation.

Purpose of Matriculation

The major goal of matriculation is student success. The services of assessment, orientation, counseling/advisement and follow up are offered by Mt. San Antonio College to assist students in establishing and reaching their academic goals. These services, if successful, should result in higher grades, higher course completion rates, and a higher rate of persistence from semester to semester for the students who use them.

Mt. San Antonio College
Computerized Matriculation Tracking System

In 1985 a model for a computerized tracking system for matriculation was designed and piloted at Mt. San Antonio College. The model was developed through a collaborative effort between the College Students Services and Information Services. The project was coordinated by Dr. Bruce L. Paulson, Dean of Student Services. The computerized tracking system enables the college to follow and assess the progress of all students subject to matriculation.

Since the Fall of 1986, each entering group of students subject to matriculation has been tracked. Presently, there are six groups in the tracking system. The following six semester study compares the retention, grade point average (GPA), persistence from semester to semester, degrees and certificates earned by matriculated and non matriculated students. It compares student subject to matriculation who participated in one or more of the components of assessment, orientation, counseling/advisement, and follow up with students subject to matriculation who did not participate except for admissions.

Mt. San Antonio College Semester Comparison of Matriculated and Non Matriculated Students

The following semester summary is designed to compare the progress of students subject to matriculation who were admitted to Mt. San Antonio College and participated in one or more of the matriculation components--Assessment, Orientation, Counseling, Follow Up--with students subject to matriculation who did not participate, except for Admissions. Beginning in Fall 1986, this summary shows the progress of six semester groups from semester to semester. It shows the certificates and degrees earned, the percent of units completed and the persistence from semester to semester of Matriculated and Non Matriculated students.

MATRICULATED AND NON MATRICULATED STUDENTS

Fall 1991	Spring 1992	Fall 1992	Spring 1993	Fall 1993	Spring 1994	Fall 1994

GROUP 1 FALL 1986 SIX SEMESTERS

THE SIX SEMESTER ANALYSIS OF GROUP 1

The first group of students to participate in the matriculation program entered Mt. San Antonio College in the Fall of 1986. The following is a brief demographic profile of the group and their progress for the six semesters they have been at Mt. San Antonio College. The research plan is to follow each group for ten semesters. Group 1 will be followed for four more semesters.

Number of Students

Group 1 totaled 4,430 students who were subject to matriculation.

Matriculated Students: Those who participated in one or more matriculation components comprised of Assessment, Orientation, Counseling/Advisement, and Follow Up totaled 3,228.

Non Matriculated Students: Those who were subject to matriculation but did not participate, except for Admissions, totaled 1,202.

Age

Matriculated Students: Over 60 percent, 64.3 percent, of the matriculated students were between 16-19 years old when they entered Mt. San Antonio College in the Fall of 1986. The largest number, 1,271, 39.5 percent, were 18 years old.

Non Matriculated Students: In contrast only 31.9 percent of the non matriculated students were between 16-19 when they entered the College. The remaining 78.1 percent ranged from 20 to over 50 years old.

The age frequencies for both groups are illustrated on pages 13 and 14.

Ethnicity

Matriculated Students: Over 45 percent, 45.7 percent, of the 3,228 matriculated students are members of ethnic groups other than White.

Non Matriculated Students: Forty percent of the non matriculated students are members of ethnic groups other than White.

A summary comparison of Group 1 ethnic distribution is on page 12.

Gender

Females outnumbered males in both the matriculated and the non matriculated group.

Matriculated Students: Females, 53.1 percent; Males, 46.9 percent.

Non Matriculated Students: Females, 51.7 percent; Males, 48.3 percent.

Units Completed and Student Persistence from Semester to Semester

The number of units completed by students and their persistence from semester to semester was significantly higher for the matriculated students as illustrated by the graph on page 15. Comparisons of units completed were made between Asian, Black, Hispanic, and White matriculated and non matriculated students who participated in Assessment, Orientation, Counseling and Follow Up. Overall, these comparisons illustrated on pages 17 through 24 show the unit completion rate of Asian, Black, Hispanic and White students who participated in these matriculation services was significantly higher than those who did not.

THE SIX SEMESTER ANALYSIS OF GROUP 1 (Continued)

GPA Comparison

The matriculated overall comparison illustrated on page 16 shows, with the exception of the first semester Fall 1986, the non matriculated students earned higher GPAs overall than the matriculated students. However, the individual grade point average (GPA) comparisons illustrated on pages 25 to 32 of matriculated and non matriculated Asian, Black, Hispanic, and White students show a significant number of students who participated in Assessment, Orientation, Counseling, Follow Up and All Services had higher GPAs than the non matriculated students who did not participate in these services. The following chart summarizes these comparisons showing the number of semesters matriculated and non matriculated students had a higher or the same grade point average.

THE NUMBER OF SEMESTERS MATRICULATED STUDENTS HAD HIGHER OR SAME GPA

	Assessment	Orientation	Counseling/ Advisement	Follow Up	All Services
Asian	3 semesters	5 semesters	6 semesters	5 semesters	6 semesters
Black	2 semesters	1 semester	4 semesters	4 semesters	2 semesters
Hispanic	5 semesters	6 semesters	6 semesters	4 semesters	5 semesters
White	2 semesters	5 semesters	5 semesters	6 semesters	6 semesters

THE NUMBER OF SEMESTERS NON MATRICULATED STUDENTS HAD HIGHER OR SAME GPA

	Assessment	Orientation	Counseling/ Advisement	Follow Up	All Services
Asian	3 semesters	1 semester	0 semesters	1 semester	0 semesters
Black	4 semesters	5 semesters	2 semesters	2 semesters	4 semesters
Hispanic	1 semester	0 semesters	0 semesters	2 semesters	1 semester
White	4 semesters	1 semester	1 semester	0 semesters	0 semesters

Degrees and Certificates Earned by Matriculated and Non Matriculated Students

A detailed report on the number of degrees and certificates earned by matriculated students as of October 26, 1989, begins on page 33. As of this date, degrees earned totalled 271: Males 112, 41.3 percent; Females 159, 58.7 percent. Certificates earned totalled 68: Males 22, 32.4 percent; Females 46, 67.6 percent. These figures included multiple degrees and certificates earned. The summary on page 4 and 5 includes only the first degree or certificate earned by students.
